

400 students plant 1000 trees...

NEWS FROM THE TREE

A fundraising campaign from
CoDe - Collaborating across borders

... for you, your family, friends
or the company

Participating is easy:

Donate and use the intended purpose of transfer: CoDe

CONTACT: fervan@fre.energy

Save the cloud forest –
help students for 10€ per tree

We want

- Develop the students' qualifications for professions with a future. and show them the prospects of these professions.
- Link theory and practice and integrate it into the curriculum.
- Boost sustainability.

Our first project

serves to boost sustainable forestry.

Students adopt and take care of a tree. They learn about rearing, nurturing and the importance of forests for us and our climate. They send the donors the news from the tree.

We are

CoDe – Collaborating across borders, a project of:

#freEnergy

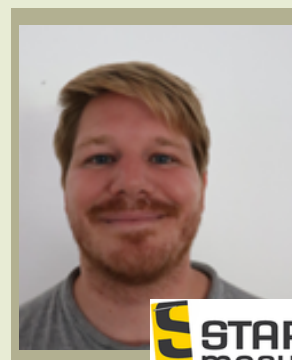

Klaus

Project development and
coordination

Mónica

Organisation and implementation
